

DIN 20090

November 4, 2013

Memo to file:

Organic Recycling Center, located at 2095 US 1 Hwy, Franklinton, Franklin County, North Carolina no longer holds any valid permits to conduct solid waste management activities at the facility.

The Treatment and Processing permit, **3503-TP-2008**, was issued on March 13, 2006, expired on March 13, 2011, and was not renewed.

A PTC/PTO for a C&D Transfer Station and Recycling Operation, **35-05T-Transfer-2010**, was issued to the facility on February 19, 2010. The permit stipulated *"The initial, substantial, construction authorized by this Permit to Construct must commence within 18 months from the issuance date of this permit. If substantial construction does not begin within 18 months from the issuance date of this permit, then the permit shall expire."* Construction of the transfer station did not occur, and the NC SWS sent a letter to the facility on September 17, 2012 informing the facility that the PTC/PTO 35-05T-Transfer-2010 was considered expired.

Therefore, Organic Recycling Center has no currently active permits to conduct solid waste management activities at the above-referenced location.
